

Biography

Six String Slaughter was formed in 2007 by Nicholas Maschøln and Søren Jensen (both ex- and founding members of Danish Death Metal act Corpus Mortale).

After about a year of songwriting and auditioning for a vocalist, Daniel Wilkens turned up to join the team and shortly after the "The World Slaughter EP" was released which was extremely well received and rewarded with some very nice reviews.

The music takes inspiration in the experience of playing metal for over 15 years and results in a blend of old-school brutality and contemporary finesse.

We're proud to introduce this next-in-line EP from Danish metal act **Six String Slaughter**.

Last year the band released 'The World Slaughter EP' which was very well received by the media and received great reviews. For the last year the band has been working on the much awaited successor which have simply been entitled 'The Next Slaughter'.

Much work has gone into the new EP, paying close attention to every aspect from songwriting and preproduction to recording and mixing.

'The Next Slaughter' was recorded at Six String Studios and produced and engineered by Søren Jensen who has also worked with such acts as Chainfist, Vira and Ironfire to name a few.

The guys are already deeply buried in the writing process for what is going to be their full-length debut album and recording is scheduled to begin in the summer of 2011.

As you will probably experience, the songs have matured a bit since the last release however still being true to the philosophy of 'old-school brutality with contemporary finesse'.
